CT1000 Series Conductive Grid Tape

Description

Transforming Technologies grid tape is the perfect adhesive tape for applications requiring EMI shielding. Our proprietary three-layer tape provides non-sparking surfaces on both the inside and the outside. A conductive grid is buried between two static dissipating copolymer substrates that will not shed crack chip or rub off.

- **Static Dissipative**
- **Strong Adhesion**
- **Four (4) Standard Widths**

Meets or exceeds requirements of ANSI ESD-S20.20.
