

HG1580NM

Non-marking Sport Heel Grounder

Description

The HG1580NM from Transforming Technologies is ideal for boots and cross-training athletic shoes. Constructed from durable materials and featuring non-marking rubber sole, buckle closure, and unique "sport" design, the HG1580NM provides protection for staff on the move.

These heel grounders connect the person wearing them to ground via a proper floor mat or flooring material. Wearing the conductive ribbon inside the shoe or sock assures proper electrical contact with the user. A rugged 1 meg ohm molded resistor is standard. The red elastic strap conforms to shoes for a tight fit. Heel grounders are worn on both feet to provide consistent grounding while in motion.

Meets or exceeds requirements of ANSI ESD-S20.20.

Buckle

Key Features: • Buckle closure • Molded resistor • 35mm sport design

Product Specifications

Resistor: 1 meg ohm (+/- 5% tolerance), Molded
Color: Blue hook and loop, Red Elastic
Gray Non-marking Rubber
Rubber Exterior: 5×10^{10} ohms
Ribbon: Conductive yarn in gray polyester ribbon

Product Number

<u>Item Number</u>	<u>Description</u>
HG1580NM	Heel Grounder, Sport, Non-marking Buckle, 1 meg

Note: Heel grounders are dependent on foot perspiration in the shoe to create and maintain electrical contact with the body. The HG1580NM works reliably with stockings and socks due to the moisture present.
